HEALTH CARE ASSISTANCE

Helping Routt County neighbors receive much needed health care while on your path to self-sufficiency.

Everyone, at any given time in their lives, is on a spectrum to thrive. We all bounce back and forth on this spectrum as life happens. We would love everyone to always be thriving, but we are keenly aware that's not possible. Lift throws us curveballs ... we take missteps ... Inevitably, *we will all feel the wind at our face at times.*

It is our honor to meet each person where they are and help them move closer to thriving.
